

Swirl® Table Top

All top surfaces are .080" thick with primary stiffener ribs and have 1½" profile edges. Table tops are constructed of individual boards bolted together and have longitudinal seams. Table tops will not crack or warp after extended usage or exposure to heat, moisture or sunlight. Tables will not emit toxic fumes, gases or smoke in high temperatures related to a fire (passes Cal Fire Code 133). Tables have permanent scratch-resistant stacking bumpers attached to the legs to prevent damage when stacking.

Swirl® Table Surface

Aluminum features a sanded random swirl pattern etched into the surface. A baked on translucent and clear coat finish protects the table. The swirl finish is delicate in nature and will be compromised if not handled with appropriate care. The surface finish is sealed.

Sustainability

Aluminum extrusions contain 70% recycled aluminum; 10% is post-consumer content, and 60% pre-consumer content. Southern Aluminum products are 100% recyclable.

Load Capacity

All table tops will support up to 3,000 lbs. of distributed weight.

Folding Legs

All legs are aluminum and welded together for strength, then attached to the table with zinc-plated bolts and nuts. Legs will never rust. Powder-coat paint in Matte Black color is applied for finishing. Painted legs are thermal set powder-coated finishes and have the hardest surface and maximum scratch/mark resistant qualities in the industry. Fasteners are aluminum and/or zinc plated steel.

Design Options

Available Finishes*

* Printed colors may vary from the actual product.

Leg Finishes*

Leg Styles

* H Style leg is available with adjustable feature or caster wheels

Available Sizes

* All tables have a height of 29.75"
