PROVEN ROI

ASSOCIATED SAVINGS

Linens

Labor + Time

Water + Energy

SAMPLE ROI SCENARIO

The below example demonstrates the cost savings associated with the use of linenless tables vs. traditional tables with linens for an average 10,000 sq ft event space.

Savings and ROI are based on the initial investment as well as the costs associated with laundry, linen replacement, and labor required when using tables with linens. When transitioning to linenless tables, properties can often recoup their investment in as little as 12 months. The reduction in water and energy usage is yet another benefit through improved sustainability efforts.

SAMPLE INVESTMENT

SOPHISTICATED SIMPLICITY

A successful meeting begins with the right table for the right event. iDesign Tables™ combine the look of contemporary event furniture with the durability needed to withstand day-to-day set, strike, and store. This product is purpose-built with contoured comfort grips for ease of lifting and carrying, and a reimagined vinyl perimeter designed to endure wear and tear. With scratch-resistant laminate, and a tough aluminum chassis that contains at least 70% recycled material, this lightweight linenless table is a must-have powerhouse product.

[two tables in one]

MULTI-FUNCTION AND PURPOSE DRIVEN DESIGN

This well-crafted 2-in-1 table boasts the quality, style, and durability only Southern Aluminum can deliver. The lightweight aluminum foundation is designed to support up to 2,000 lbs. yet has a refined, contemporary look and feel. A sturdy foldable leg base, a durable vinyl tabletop perimeter, and a drop-down modesty panel with optional integrated power adds richness to this versatile and powerful linenless product.

MULTI-PURPOSE BY DESIGN

Specifically designed to be multi-functional and modular, the GL Table™ is a product line built for many purposes. Activate event stations, buffets, and bars, or use as communal and collaborative pods. Much like residential furniture, the gathering leg concept is designed to look like a one-piece table but is easily stored via removable legs and its attachments. Available in an array of color and laminate combinations, the GL Table™ is extremely sturdy and allows for easy mobility with a caster option.

FORM MEETS FUNCTION

This contemporary line of linenless nesting and buffet tables are flexible furnishings for traditional and non-traditional spaces. Synergy Nesting Furniture™ features architectural forward legs with discreet casters to effortlessly mobilize purpose-driven stations and buffets. Functional yet attractive, Synergy is poised to be as useful for event activation as it is for an alluring standalone furniture piece when not in use.

RENOWNED HERITAGE

Perfect for all seasons, Southern Piknik® is the product that built Southern Aluminum. Produced since 1978 with a design that is timeless, this is a staple for bringing people together to celebrate, relax and gather. Built to weather any element or climate, this picnic table will not diminish when exposed to the elements. Featuring a 12" wide contoured seat with an option to fold and store, Southern Piknik® provides comfort for parks, playgrounds, pools and events.

SUSTAINABILITY MISSION

Southern Aluminum has been passionately manufacturing sustainable aluminum furniture for more than forty-five years. Proudly crafted, our mission is to be good stewards to the environment, taking exceptional care in the green practices needed to manufacture product from start to finish.

Aluminum is one of the most sustainable materials today due to its recyclability. Lightweight, strong, and durable, aluminum products lower energy costs and carbon emissions in dozens of applications. By using aluminum as the foundation of products, Southern Aluminum offers the most sustainable linenless furniture solutions to the industry.

The aluminum in every product contains at least 70% recycled aluminum. Over the years the manufacturing facility in Magnolia, Arkansas has implemented several sustainable practices and equipment to divert waste away from landfills and improve the recycling of aluminum, scrap metal, cardboard, and plastic. The conservation of scrap materials is continually applied in the daily production process and the powder coating paint system is designed to optimize the re-use of water and minimize steam off-gas.

Southern Aluminum will continue to innovate in many ways to better serve our world and our customers because it is who we are and how we conduct business.

Discover Southern Aluminum's **#LinenlessAdvantage**

● OPERATIONAL EXCELLENCE

- Linenless tables will provide a clean and contemporary look to sets
- Less labor is needed to set and strike linenless setups
- Room turns and refreshes become more efficient

● CLEAN AND SAFE

- Linenless aluminum tables weigh less than competing product materials making it easier for employees to handle, set, and store
- Damage to walls, doorways, and the product itself is lessened due to a lighter product
- A sanitized environment is easily achieved by wiping down product quickly

● SUSTAINABILITY

- Aluminum is a highly recyclable material, and all Southern Aluminum products contain at least 70% recycled aluminum
- Laundry expense and linen inventory costs will be eliminated
- The amount of water, chemicals, and energy needed for everyday linens is greatly reduced
