

Outdoor XCube™ Table Top

All top surfaces are .080" thick with primary stiffener ribs and have 1½" profile edge and are constructed of individual boards bolted together and have longitudinal seams. Table tops will not crack or warp after extended usage or exposure to heat, moisture or sunlight. All edges on the table top have a flat edge, including corners. Tables will not emit toxic fumes, gases or smoke in high temperatures related to a fire (passes Cal Fire Code 133). All edges on the table top have a flat edge, including corners.

Folding Leg Base

Folding base legs are 1½" diameter aluminum tubing. Cross-members are heat-treated 1" square aluminum tubing and are welded together for strength. Legs are clear coated and rust resistant. Painted legs are thermal set powder-coated finishes and have the hardest surface and maximum scratch/mark resistant qualities in the industry. Fasteners are aluminum and/or zinc plated steel.

Engage Locking System™

The ENGAGE locking System™ utilizes powerful magnets for a fast and positive attachment. This system features no-look base pockets to effortlessly guide the table base to a secure position.

Sustainability

Aluminum extrusions contain 70% **recycled** aluminum; 10% is post-consumer content, and 60% pre-consumer content. Southern Aluminum products are 100% recyclable.
